

What are the Zoo trails?:

There are five new walking trails based on zoo animals coming to Kidlington. Did you know that in the 1930's there was a zoo here? From the Bear Cub Trail at 1.7km to the Lion Trail at 5km there's a route for everyone. All routes are accessible to buggies and wheelchairs.

Finding your way:

A central sign in Exeter Hall grounds will give full information on each route. All the distances start from there but you can join a route at any point. Simply follow the footprints and lines on the ground and signposts up above. These will lead you around each circular route. There are also a few shortcuts marked to shorten your walk.

On the route, keep an eye out for:

- Bug hotels and nature stops
- Scramble boulders and balancing logs
- Pavement games and activities
- Benches and picnic spots
- Adventurous wolves - How many can you spot?

Don't forget:

Remember to take water and suncream with you.

Also coming soon the K5 Explorer routes

A selection of mapped walking routes that take in the villages surrounding Kidlington. Discover historic sites and explore the countryside on routes that connect with the Zoo Trails.

Follow the footprints
to explore the
Kidlington and Gosford

ZOO Trails

- Have fun with your family or friends
- Get active outside for body and mind
- Discover new paths you've never walked before
- Enjoy nature on your doorstep

ZOO Trails

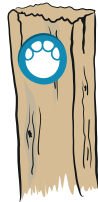

Monkey trail

4km
Inquisitive monkey explores the High Street, The Moors and, of course, the woods of Park Hill Recreation Ground.

Lion trail

5km
Prowling lion follows the longest route through Kidlington and Gosford to the site of the old zoo.

Elephant trail

4.5 km
Majestic elephant strides towards Garden City. Did you know that Rosie the Elephant now stands on the Oxford Road roundabout?

Big Bear trail 2.7km Bear Cub trail 1.7km

Adventurous bear cub and big bear go looking for the canal and the wildlife havens of Chorefields.

One day, three adventurous wolves decided to go exploring from the zoo. They are having fun on one of the trails.
Can you find them?

Have fun with your family or friends

Key

- Short cuts
- Bug hotels and nature stops
- Scramble boulders and balancing logs
- Pavement games and activities
- Benches and picnic spots
- Adventurous wolves — How many can you spot?
